

# CUT THE CORD AND MOVE TO WIRELESS LOCKS WITH BRIVO ONAIR

## BENEFITS

### Choose the wireless lock that best meets your door type

including exterior, interior, gate, store-front, glass doors, cabinets, lockers and server racks.

### Seamlessly integrate wireless locks into your Brivo Onair platform

with easy installation, software compatibility and reduced wiring and labor expenses.

### Provide greater security than mechanical locks

with real-time door status monitoring and access control via Brivo Onair.

Use wireless locks from the top industry brands with your Brivo Onair platform to achieve real-time monitoring, added control and lower installation costs.

# WHAT YOU NEED TO KNOW

## DON'T GET 'LOCKED IN' WITH JUST ONE LOCK BRAND

Have the flexibility to choose the wireless locks that meet your specific door opening and physical security requirements.
